WALK-BEHIND DOUBLE DRUM VIBRATORY ROLLER

Manual driven roller with double hydraulic traction and vibration insertion activated by electromagnetic transmission and belts. Suitable for compacting asphalt or granular surfaces. The extremely compact frame allows the operator to work almost along the wall. Thanks to an efficient cooling radiator it has been possible to use few oil in the hydraulic circuit, allowing use in any climatic condition

Ergonomic handle

the handy controls positioned on the handle allow to activate the vibration, to change the compaction force and to establish the direction of the roller travel

45 lt water tank capacity

large diameter filling cap gives easy access for cleaning

Engine protection frame

the rollbar guarantees maximum engine protection and easy and safe transportation

Ventilation grilles

for optimal cooling and easily removable
